Countries served across Africa

Message from our Directors

"Our credibility is our foundation. As a leading Oracle partner, we've built ETS on trust: trust from our clients, trust from Oracle, and trust in the belief that Africa has the expertise to lead its own technology future."

— **Zandi Mbele**

Chairperson, ETS Innovations

"We've been intentional about two things: our growth across Africa and finding the right technology to meet our clients where they are. As one of the most certified Oracle partners on the continent, we believe Africa will solve Africa's problems and that starts with local demand, met by local expertise."

— **Dennis Naidoo**

CEO, ETS Innovations

WHAT WE DO

Our three core services

Three integrated service layers. One goal: your business transformation and growth.

01

Infrastructure Services

- Hardware and software supply matched to your objectives
- Advisory, design and delivery from experienced professionals
- On-site and remote go-live support as a Field Delivery Partner

02

Application Services

- Oracle Cloud Applications with AI, machine learning and OCI built in
- Predictive analytics and automation across business processes
- Backed by Oracle's 430,000+ customers worldwide

03

Advisory Services

- Strategy development, capability maturity and business transformation
- Operating model design, business analysis and change management
- Cloud consulting, enterprise architecture and licence compliance

OUR CLOUD PLATFORM

ETS Prime Cloud

Your data stays in South Africa, giving you the full power of Oracle Cloud Infrastructure without the compliance risk.

Data Stays Home

Fully POPI Act compliant, hosted in South Africa, always.

OCI Speed, Guaranteed

Identical performance to Oracle Cloud. Your users won't feel a thing.

One Call Does It All

A dedicated service delivery manager for network, Oracle, and Data Center.

Pay As You Grow

Scale environments up or down. No surprises on your bill.

Failover, Instantly

Real-time replication between OCI and Prime Cloud, DR that just works.

Managed Before You Notice

Monitored, patched, and optimised by ETS. Problems are solved before they're yours.

PARTNERS

Best-of-breed solutions

We create, manage, modernise, analyse and transport your data with the world's leading technology platforms.
